

The Race Officer's assistant!
AutoHoot makes running races simpler

- ✔ Simplifies starting races
- ✔ Avoids timing errors
- ✔ Easy to use
- ✔ Robust design
- ✔ Configurable timing sequences

...without Bluetooth

Basic AutoHoot model is pre-programmed with standard start sequences.

Optional USB cable enables upload of customised sequences.

RRP from £165*

AutoHoot automatically controls the sequence of sound signals used to start sailing races.

An essential aid for race officers, there's no easier way to start a race; just switch it on and the sequence begins.

Select the start sequence from:

- Rule 26 (5-4-1-Start)
- Match Racing
- Team Racing
- Countdown
- + user-programmable sequences

Includes single or repeating start options.
Just connect to horn and battery.

...with Bluetooth

AutoHoot with integrated Bluetooth enables an Android device to be used as a remote control.

With the AutoHoot App:

- Set the start sequence
- Sound a hoot
- Display countdown time
- Record the time of a hoot for finishing boats

RRP from £225*

*prices exclude VAT

Just switch on at the start of the sequence

Press at any time to 'HOOT'
